DETAILED ACTION

- (1). **Claims 1-3** are cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- (2). **Claims 4-5** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, it recites: "wherein multi-step regeneration unit is equipped with at least one device each for CO enrichment, H₂S enrichment, CO₂ stripping and thermal regeneration", and "a gas stream that is rich in CO and CO₂ is taken from a device for CO enrichment". Since the device for CO enrichment limits the resulting gas stream to CO enrichment only, it is unclear how "the gas stream rich in both CO and CO₂ is taken from a device for CO enrichment".

Claim 5 is rejected because of its dependence.

Allowable Subject Matter

- (3). **Claims 4-5** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance: The limitations: at least one device each for CO enrichment, H₂S enrichment, CO₂ stripping and thermal regeneration cited in instant claim 4 overcomes prior arts of records.
